Career Objective

Computer Science graduate specializing in Data Science with strong programming, data analysis, and problem-solving skills. Seeking an opportunity to apply technical expertise in software development and data-driven solutions to contribute to innovative and efficient systems.

Technical Skills

Programming	Python, C++, C, Java, Kotlin
Data Analysis	SQL (MySQL, Oracle), Data Validation, Dataset Analysis, Data Querying
Web	MERN Stack, HTML, CSS, JavaScript
Mobile	Android Development, Jetpack Compose, MVVM Architecture
Tools	Git, GitHub, Microsoft Office, Google Workspace, Android Studio
Other	Data Documentation, Analytical Thinking, Process Compliance, Problem Solving

Relevant Experience & Projects

Multimodal Image-to-Text Human Emotion Analysis [Report](#) [Kaggle Notebook](#)

- Developed multimodal sentiment analysis model (positive / neutral / negative) using image + text from social media
- Trained on 5,000+ Twitter/Instagram/Facebook image-caption pairs with PyTorch & Hugging Face Transformers
- Applied data augmentation, tokenization; evaluated using accuracy, precision, recall, F1-score

TaskMaster - (Full-Stack Task Management Application) [GitHub](#)

- MERN stack application with JWT authentication, drag-and-drop reordering, category filtering, due dates & real-time search
- Responsive Tailwind CSS interface (dark mode support), daily goal tracking, streak statistics
- Secure API endpoints with middleware-based JWT verification

ZeroMiss — (Android Productivity Application) [GitHub](#)

- Kotlin + Jetpack Compose + MVVM; integrates Codeforces REST API for live contest feeds
- Features: Pomodoro timer, tuition manager, AlarmManager reminders, WorkManager attendance automation
- Modern UI (Liquid Glass style), Room database, DataStore, Retrofit2 networking

Education

BSc in Computer Science & Engineering (*Major: Data Science*)
East West University

Additional Strengths

- ▷ Meticulous attention to detail in structured data work
- ▷ Skilled at identifying dataset inconsistencies & anomalies
- ▷ Competitive programming background (sharpened algorithmic thinking)
- ▷ Production-ready Android apps with modern architecture & UI patterns
